

BIRS Workshop
Regularization in Statistics
Wednesday, September 10, 2003

MORNING

9:00 – 9:45

Gene Golub (Stanford University)

Method of moments and statistical computation

9:45 – 10:15

Werner Stuetzle (University of Washington)

Spline smoothing on surfaces

10:15 – 10:45

Jackie Shen (University of Minnesota)

A young mathematician's reflection on vision: illposedness and regularizations

10:45 – 11:15 COFFEE BREAK

11:15 – 12:00

Tony Chan (University of California, Los Angeles)

Geometric and total variation regularization in inverse problems

AFTERNOON: free
