Loppet	Beckie Scott Loppet (classic): 5,10, 20 & 30 km in late January
Description of trails	<p>The trails are located on the NW edge of Vermillion, next to a campground. They are located on the wooded south side of a valley alongside a lake. Some of the classic trails are one way. The perimeter route follows a figure of eight course and is about 9 km long. The western most loop involves several climbs up some steep hills. There are no really tricky downhill sections on these ski trails. The Lakeside trail is a wide trail following a road & is set for both classic & skate skiing. This is the one of the easiest trails. Most junctions are signed with a map & a location marker.</p> <p>The ski lodge is a lovely old converted station building. It is often closed during the week. There are also some outdoor washrooms next to the car park.</p>
Trail map	None except at trail junctions

Mike's Two Skis Worth

This is the hometown of Beckie Scott, currently our most famous Nordic Olympian. Vermillion is another one of those areas that sometimes receives snow before Edmonton and often retains it longer. The 2007/2008 season was a good example. They had excellent conditions from mid November until the end of March.

Although it is a bit of a long haul out for a day trip particularly in the early part of the season when the days are short, I have often found the trip well worth it. This is particularly when there is no decent snow in Edmonton. I have usually found the grooming to be very good. This ski area probably has more options for classic skiing.

For a pleasant ski with a reasonable variety of terrain, I find the 9 km figure of eight loop around the perimeter trails a good option. Be warned the back 3 km loop on this circuit has several very steep hills that require herringbone ascents. For a gentler ski take the Lakeside trail that as the name suggests follows a road along the lake shore for most of its course.

The Beckie Scott Loppet is another one of my favourite events on the loppet circuit because it still retains a casual atmosphere. The course is a series of laps roughly following the course of the perimeter trail, e.g. The 10 km is once round, the 20 km twice & so on. This loppet is another event I recommend to skiers who want to start some recreational racing and are intimidated by some of the larger events. The 10 km or 20 km distances are good ones to enter, as they are usually less competitive than the 30 km event.
